## **CAREER COUNSELLING**

**‘Transforming Schools through Career Counseling’ Virtual Workshops for CBSE School Leaders, Teachers, Counselors, Parents, and Students (July 2024)**

***Dear Parents/ Students,***

**The primary aim of NEP 2020** is to develop a vibrant and transformative school education sector that ensures the development of the unique potential of each learner and provides a safe and stimulating learning environment to all students and teachers.

**The NEP 2020 proposes for an overhaul of the existing teaching learning patterns, by optimising learners’ academic and vocational capabilities. CBSE, has taken the task for effective implementation of online portal for Career Guidance and Counselling of class IX-XII students in all affiliated schools in the same context.**

It is imperative for the students to understand their learning strengths and weaknesses; have realistic goals commensurate with their capabilities. Guidance and Counselling serves the basic needs of each individual as a unique entity as there are perceptible differences between the individuals in native capacities, abilities and interests. Equally significant are the changes within the individual during the course of time with maturity and exposure. Besides, Guidance also enhances positive attributes of an individual which help to build a positive self-image.

“To bring scale, speed and standard to the career guidance process, CBSE has dovetailed these objective to develop a holistic integrated vision for career guidance and counselling for building knowledge and skills of students and to make them ‘Future Ready’.

To ensure the professional development of school leaders, teachers, and counselors in area of career/psychosocial counseling, and to facilitate students and parents in the career decision-making process, CBSE will be organizing a training series in July 2024. This will be a series of five virtual workshops (Details at Annexure –A), focusing on one stakeholder per week, specially designed to provide the participants with a holistic approach to career advising and decision-making processes.
